OSHA-Authorized Online Outreach Training Providers

On October 8, 2014, OSHA announced a notice of competition and request for proposals for online OSHA Outreach Training Program providers. For additional information regarding this announcement please see the [Online Outreach Training Program Web page](#).

The following organizations are the current OSHA-authorized training providers. Please note that this list is subject to change once OSHA makes an award-announcement for the new competition. The authorization for vendors currently providing online outreach training courses will be phased out once a contract(s) is made under this Solicitation. The request does allow for a transition period between any new and current OSHA-authorized Online Outreach Training Program providers. Current OSHA-authorized online training providers must submit a proposal under this Solicitation to be considered to offer continued online Outreach Training Program courses.

OSHA-Authorized online training providers are required to provide OSHA a list of secondary providers of their programs. Each secondary provider must prominently indicate their affiliation with the OSHA-Authorized online training provider on their website.

If you have any questions about online training, please send an e-mail.
